

INSTRUCTIONS

The OutRig Post is designed to work with the T-track system on the Breeo X Series Table. This convenient device allows you to mount your Outpost Grill on the X Series table for food preparation/serving or storage. The OutRig Post can also be mounted on any railing or edge .5"- 1" thick.

USE & CARE

Position OutRig Post "U" bracket horizontally with edge of table top.

Align thumb screw on OutRig Post with T-track slot on underside of table.

Slide OutRig Post onto the edge of the table.

Slide to desired location.

Tighten thumb screw on bottom into T-track until snug.

You can now mount your Outpost Grill to the vertical post for food preparation/serving or the horizontal post for storage.

Clean with dish soap and warm water.

FOR YOUR SAFETY

Make sure the thumbscrew is snug before mounting any accessories.

Do not overweight OutRig Post (10 lb. maximum).

When OutPost™ Grill is hot, do not mount over the table surface.

Do not lean or sit on accessories mounted to OutRig Post.

Do not over tighten the thumb screw.
