

WAXED CANVAS APRON

USER GUIDE

INSTRUCTIONS

ABOUT

The Breeo Waxed Canvas Apron is lightweight and designed to make cooking over the fire in warm temperatures more enjoyable. This apron features leather, suspender-style shoulder and waist straps. All straps are adjustable and have snaps for easy adjustability and removal. The apron is designed with pockets and rings to hang and store tools, towels, and other grilling necessities.

USE

Use this apron while preparing food, or cooking and grilling over an open fire.

CARE

When not in use, hang or store your apron in a dry place away from moisture. Do not machine wash the apron; spot clean with cool water and a sponge or soft brush as needed.

FOR YOUR SAFETY

Always practice safety first when using Breeo® Waxed Canvas Apron. When using your apron, exercise the same precautions you would with any open fire.

Misuse and lack of care, such as allowing the apron to get wet, could potentially weaken the material and shorten the lifespan.

Do not machine wash the waxed canvas apron as it may compromise the wax treatment of the canvas.
